DETAILED ACTION

This is the final Office Action for the serial number 10/630,731, DISPLAY SUBSTRATE ACCOMMODATING TRAY AND APPARATUS AND METHOD FOR REMOVING THE DISPLAY SUBSTRATE, filed on 7/31/03.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2, 9-10 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by US Patent # 5,752,602 to Ackermann et al.

Ackermann et al. teaches a tray (figure 1) comprising a bottom section (11), a frame (12-15) and a flange-like engaging section (16) protruding externally from walls of the frame in a substantially horizontal fashion. The frame is provided along a periphery of the bottom section and projects to a level higher than a level of a top surface of the bottom section. The frame has a positioning portion (21,31) along a periphery of the frame. The bottom section includes a plurality of openings.

Art Unit: 3632

Claims 5 and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ackermann et al. in further view of Japan Patent # 236,953 to Nakajima et al.

Ackermann et al. teaches the bottom section and frame but fails to teach the bottom section and frame are formed from a synthetic resin foam material. Nakajima et al. teaches the synthetic foam material (10). It would have been obvious for one of ordinary skill in the art at the time the invention was made to have modified Ackermann et al.'s bottom section and frame with synthetic resin foam material as taught by Nakajima et al. to reduce weight in the tray for convenience of transporting it in a different location.

Allowable Subject Matter

Claims 6-8, 13 and 16-18 are allowed.

Response to Arguments

Applicant's arguments with respect to claims 1-2, 5, 9-10, 12 and 14 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3632

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
